

OUR STORY

Every brain matters community formed in response to the marijuana expansion. We seek to find freedom from the marijuana industry's predatory practices and propaganda.

"This is not about a War on Drugs. This is about a Defense of our Brains, the repository of our humanity."

Dr. Bertha Madras

OUR MISSION

Every Brain Matters is a community of support, advocacy, and science.

Join us as we call for a cultural change with the widespread use of our logo, which unites us and symbolizes both "freedom from marijuana" and optimal brain and environmental health.

The public has been deceived and misled regarding marijuana products and their effects, which has led to a public health crisis. No matter what decisions are made or how much the drug culture expands, we will "Keep On Keepin On", because we wholeheartedly know that Every Brain Matters.

EVERYBRAINMATTERS.ORG

**A COMMUNITY OF:
SUPPORT,
ADVOCACY,
AND SCIENCE**

***Freedom from marijuana
and the
drug culture expansion***

EVERYBRAINMATTERS.ORG

WE OFFER

SUPPORT (HOPE)

We acknowledge that the general public and many support groups don't understand the true and devastating impacts of marijuana. We respectfully invite you to an online group, Every Brain Matters Support/Recovery Group. We offer online support meetings and educational resources of recovery principals.

ADVOCACY (CHANGE)

This group has been created for those who want to advocate against the legalization/commercialization of marijuana, and for strict regulation and preventative measures in areas where this drug is already legal. We help curtail the widespread acceptance, commercialization, and normalization of marijuana.

SCIENCE (TRUTH)

Every Brain Matters is driven by science. We only educate and advocate facts.

Please visit our library.

THE EVERY BRAIN MATTERS STORE

We call for a cultural change with the widespread use of our logo to bring a visual public awareness that unites us and symbolizes "freedom from marijuana" and promotes optimal brain and environmental health.

THE EVERY BRAIN MATTERS COMMUNITY BELIEVES:

- Drug policies should be driven by science and the best harm reduction is drug prevention.
- Marijuana and any drug, use affects more than just the user, and is creating a (growing/devastating) mental health and addiction crisis.
- The lack of resources and failed state regulatory policies have caused a public health crisis.
- The illegal marijuana market has grown exponentially as a result of legalization and marijuana production is an environmental disaster.
- No use of marijuana in pregnancy or under the age of 25 is safe. There is no proof that concentrated marijuana is safe for adults to use.
- Societal costs outweigh any tax revenue.

EVERY BRAIN MATTERS PODCAST, "IT'S JUST POT, WHAT'S THE PROBLEM?"

Aubree Adams, director of Every Brain Matters, a former Colorado mom and mom for young people in recovery, exposes the harms and costs of marijuana promotion. <https://www.podcast.everybrainmatters.org/>
